RS Royal Sovereign

A Front Loading Electric Bill Counter with Counterfeit Protection Counts bills at a fast rate of up to 1200 bills per minute, saving you time and effort. Large hopper capacity can hold up to 300 bills so you can count more bills in fewer stacks. Uses ultraviolet, magnetic and infrared counterfeit detection to detect fake bills. Automatically begins counting when bills are inserted and stops when finished for quick, convenient counting. Batching option can count and create batches of 1 to 999 bills for easy and accurate bill banding, transportation or storage. Front loading design makes it easy to use. Ensures amazing accuracy by running an automatic self test every time it is turned on. Manufacturer's limited three-year warranty.

Printing performance you can rely on

PM COMPANY

Direct Thermal Printing Thermal Paper Rolls PM is committed to a sustainable environment. In 2009, PM became the first forestry certified paper roll converter in the United States The paper rolls are guaranteed to work efficiently with your machine print-head to provide crisp, clear, black images. The reliability and performance of a thermal printer is directly related to the quality of the supplies, including the paper, used by the customer. The IBM® Testing Process is an "Industry Standard" test for the thermal papers used in the marketplace. To be IBM® approved, the paper must pass a 100km of paper print-head test without abrasion or build-up, with no cutting failures. IBM testing only confirms that the use of approved papers will not negatively affect the operating life of an IBM thermal printer. Manufactured to OEM specifications. This product was made from wood that came from a certified managed forest.
